Type of Release	Produced Water	Volume of Release	25 BBLS	Volume Recovered	24 BBLS
Source of Release	Discharge side of injection pump	Date and Hour of Occurrence	10/11/2012 7AM	Date and Hour of Discovery	10/11/2012 8AM
Was Immediate Notice Given?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom?			
By Whom?	Date and Hour				
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse:			

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

The piping between the injection pumps had another leak.
We dug it up and temporarily repaired.

Describe Area Affected and Cleanup Action Taken.*

It covered an area of approximately 40' x 40'. We had a vacuum truck pick up what we could. Backhoe to back drag
We are already waiting on a game plan to present to BLM to clean up this location.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
