If a Watercourse was Impacted, Describe Fully.*

GW @ 63'

Describe Cause of Problem and Remedial Action Taken.*

Conocophillips employee was advised of a leak acast of the central tank battery. Leak originated from a hole in a 6" steel injection line due to suspected corrosion. Vacuum truck was called to recover standing fluids.

Describe Area Affected and Cleanup Action Taken.*

Affected area s a80' X 30' X 4" area of location and grassy pasture land. Approximately 55 bbls of produced water was recovered.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
