Mr. Michael Stogner  
New Mexico Oil Conservation Division  
1220 South St. Francis Drive  
Santa Fe, New Mexico 87505

Re: Dusenberry 2B  
Unit P, 855' FSL & 480' FEL  
Section 1, T31N, R12W, San Juan County, New Mexico  
API # - 30-045-33210

Dear Mr. Stogner

This is a request for administrative approval for a non-standard gas well location in the Blanco Mesaverde pool.

The Dusenberry 2B is staked at an unorthodox location due to existing utilities, and a surrounding community. Existing houses & above and underground utilities encompass a majority of the area within the legal spacing window for the formation. As a result, no suitable location could be found within the window. Consequently, this location was staked non-standard for the Mesaverde formation, to best fit the terrain and surrounding community. See the attached topo map for further clarification.

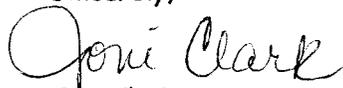

Production from the Mesaverde is included in the 320-acre gas spacing unit, the east half dedication of Section 1, T31N, R12W.

To comply with the New Mexico Oil Conservation Division rules, we are submitting the following for your approval of this non-standard location:

1. Approved APD
2. C-102 plat showing location of the well.
3. Topo map
4. Aerial map showing close proximity of residents to staked location.
5. Plat showing offset owners/operators, of which Burlington is its own offset/operator of the affected side to the section.

Notification to submit to offset owners/operators is not necessary since Burlington Resources is its own offset/operator.

Sincerely,

Joni Clark

Sr. Regulatory Specialist
