Re: Chesapeake's Budda 4-1 Well
731 feet FSL & 1043 feet FWL
S/2SW/4 (80-acre dedication)
Section 4, T17S R37E, Lea County
Shipp-Strawn Pool

Mike:

On August 8th, I filed the referenced administrative application requesting NSL approval for this well.

As indicated below, Chesapeake has gotten itself into a bind with a rig and must either find a well site or release the rig or pay standby penalties.

I have been asked to request a "favor" from you for an expedited order. Thanks-

Regards--Tom

Tom,

Per our recent conversations, we are in immediate need of the NSL approval for the Bubba 4 State #1 well in order to hold one of our two deep (12,000' - 14,000') rigs. We will be finishing up on the Skip Jack 26 #1 well today, located in Section 26-16S-35E, and moving over to the Bubba 4 State #1 well, located in Section 4-17S-37E, hoping to spud on Thursday. This rig was originally scheduled to go to the Neuhaus 14 Federal #5. However, it was not finished on the Skip Jack in time to move over and the drilling schedule had to be adjusted.

THANKS,

Lynda F. Townsend
