*Administrative Order NSL-5257*

Dear Mr. Schultz:

Reference is made to the following: (i) your application under an original signature on behalf of the operator, McKay Oil Company ("McKay"), dated July 19, 2005 but was not filed with the New Mexico Oil Conservation Division's ("Division") office in Santa Fe, New Mexico until August 15, 2005 (*administrative application reference No. pSEM0-522841845*); (ii) Ms. April McKay's e-mail to Mr. Michael E. Stogner, Engineer with the Division in Santa Fe, New Mexico, on July 21, 2005 inquiring as to the status of this application, which had not been filed; (iii) your telephone conversation with Mr. Stogner on Tuesday afternoon, August 16, 2005; and (iv) the Division's records in Artesia and Santa Fe: all concerning McKay's request for an exception to the well location requirements (Rule 4) provided within the "*Special Rules and Regulations for the West Pecos-Slope Abo Gas Pool*," as promulgated by Division Order No. R-9976-C, dated March 19, 1996, as amended by Division Order No. R-9976-D, issued in Case No. 13057 on February 4, 2004, for a non-standard infill gas well location within an existing standard 160-acre gas spacing unit for the West Pecos Slope-Abo Gas Pool (**82740**) comprising the SE/4 of Section 9, Township 6 South, Range 22 East, NMPM, Chaves County, New Mexico.

This application has been duly filed under the provisions of: (i) Rule 5 of the "*Special Rules and Regulations for the West Pecos Slope-Abo Gas Pool*;" and (ii) Division Rules 104.F and 1207.A (2).

This unit is currently dedicated to McKay's Lookout Federal Well No. 5 (API No. **30-005-62357**), located at a standard gas well location 1980 feet from the South line and 660 feet from the East line (Unit I) of Section 9.

It is the Division's understanding that all of Sections 9 and 10 and the N/2 and SW/4 of Section 11, Township 6 South, Range 22 East, NMPM, Chaves County, New Mexico is a single Federal lease (*United States Government lease No. NM-36192*) with common mineral interests in which Devon is the leasehold operator.

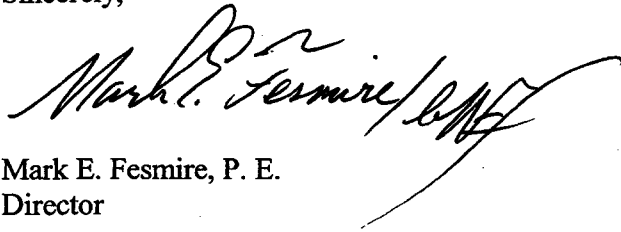

By the authority granted me under the applicable provisions of the special pool rules governing the West Pecos Slope-Abo Gas Pool and Division Rule 104.F (2), the following described unorthodox infill gas well location within the above-described 160-acre gas spacing unit is hereby approved:

**Lookout "B" Federal Well No. 5  
1310' FSL & 400' FEL (Unit P).**

Further, gas production from both McKay's above-described existing Lookout Federal Well No. 5 and proposed Lookout "B" Federal Well No. 5 are to be simultaneously dedicated to the subject 160-acre gas spacing unit.

Jurisdiction of this cause is retained for the entry of such further orders as the Division may deem necessary.

Sincerely,

A handwritten signature in black ink, appearing to read "Mark E. Fesmire", with a stylized flourish extending from the end of the signature.

Mark E. Fesmire, P. E.  
Director
