Dear Mike:

Marbob Energy Corporation respectfully requests administrative approval for an unorthodox location of the Sly Hawk State #4 well as referenced above. Attached is an OCD Form C-102 showing the proposed oil well spacing unit along with two maps, one showing the adjoining spacing units and one more clearly showing existing wells in Section 3. The well is unorthodox to the east boundary of the NE/4NW/4. Marbob Energy Corporation is the only affected offset operator, with Marbob and Pitch Energy Corporation owning 100% of the working interest. Marbob Energy Corporation and Pitch Energy Corporation have identical ownership. Therefore we believe no notice is required.

The proposed well is horizontal and while the point of penetration of the Delaware is at an unorthodox location, we anticipate the top of the producing horizon to be at an orthodox location of 346' FNL and 2255' FWL of Section 3, T25S, R28E.

Thank you for your consideration of this. If you need to talk with me further please call me at 800-748-1550.

Sincerely,

Brent May
Geologist
