Mr. Tim Gum:

Yates Petroleum is responding to the Letter of Violation received 11/04/09 in reference to the Greasewood BD State #2. Upon further investigation we discovered no spill of a reportable quantity has occurred at the location in question. However, there have been several spills of un-reportable quantities over time, therefore we have completed a C-141 (see attached) and are excavating contaminated material, upon which we will sample to confirm we are with in action levels. Do you want a written work plan on this location?

If you should have any questions please feel free to contact me at the number below.
