Division Director  
Oil Conservation Division

**December 7, 2012**

Mr. Keith Warren  
370 17<sup>th</sup> Street  
Suite 2500  
Denver CO 80202

Dear Mr. Warren:

The Oil Conservation Division's (OCD) records indicate that the following Water Quality Control Commission (WQCC) Discharge Permit has already expired or will soon expire.

<b>GW-145</b>	<b>Duke Zia Gas Plant &amp; Zia Booster Station</b>
<b>GW-137</b>	<b>Duke Carrasco Compressor Station</b>
<b>GW-143</b>	<b>Duke Cal-Mon Compressor Station</b>
<b>GW-142</b>	<b>Duke Sand Dunes Compressor Station</b>
<b>GW-296</b>	<b>Duke Cedar Canyon Compressor Station</b>

OCD has revised its permitting policies. These changes may affect the renewal of your discharge permit(s). Please submit an "Oil & Gas Facilities Questionnaire for Determination of a WQCC Discharge Permit" for each of your facilities (see attachment and OCD's "Notifications and Announcements" at <http://www.emnrd.state.nm.us/ocd>). Please submit the completed Questionnaires within 30 days of your receipt of this letter. Based on your response, OCD will determine whether you will need to submit a discharge permit renewal. If OCD determines that you no longer are required to operate under a WQCC Discharge Permit, you may be required to obtain a separate permit(s) for other processes at your facility, such as: pits, ponds, impoundments, below-grade tanks; waste treatment, storage and disposal operations; and landfarms and landfills. OCD will determine if any of these existing processes may require a separate permit under OCD's Oil, Gas, and Geothermal regulations. If OCD determines that a separate permit(s) is required, then a letter will be sent to you indicating what type of permit is required.

Please keep in mind, if your facility has any discharges that would require a WQCC Discharge Permit now or in the future, then you will be required to renew or obtain a WQCC Discharge Permit.
