Division Director

Re: Application for Unorthodox Well Location  
Delhi "B" State #4  
30-015-40832  
260' FSL & 330' FWL (Unit M)  
Section 28, T-17 South, R-28 East, NMPM  
Eddy County, New Mexico

Dear Ms. Bailey:

Pursuant to Division Rule 19.15.15.13, Alamo Permian Resources, LLC, ("Alamo") respectfully requests administrative approval of an unorthodox oil well location for its proposed Delhi "B" State #4. This well will initially be drilled as a development oil well in the Red Lake; Queen-Grayburg-SA Pool 51300 at an unorthodox well location 260 feet from the South line and 330 feet from the West line (Unit M) of Section 28, Township 17 South, Range 28 East, NMPM, Eddy County, New Mexico. The well will be dedicated to an existing 40-acre spacing and proration unit in the Red Lake; Queen-Grayburg-SA Pool comprising the SW/SW of Section 28.

The Red Lake; Queen-Grayburg-SA Pool is currently governed by Division Rule 19.15.15.9 which requires standard 40 acre oil spacing and proration units with wells to be located no closer than 330 feet to the outer boundary of the spacing unit.

As shown on the attached aerial map, there are buried gas lines, overhead electric power lines, and a caliche road within the SW/SW of Section 28 that preclude drilling at a legal distance from the South line of this 40-acre tract. Relocating this well East to the other side of the road is unacceptable because this would place the well too close to the Delhi "B" State #2. Relocating the well to the North of the buried pipelines is unacceptable because this would place the well too close to the Delhi "B" State #3. The proposed unorthodox location is necessary in order to maintain a safe distance from the buried gas line, electric lines, and Alamo's existing Delhi "B" State #2 and Delhi "B" State #3 wells.

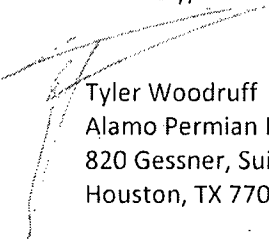

The affected offset acreage comprises the NW/NW of Section 33 and NE/NE of Section 32. Alamo has preemptively contacted the offset operators of those tracts and has received a formal waiver of objection from both operators.

Attached is a Form C-102 showing the proposed well and an aerial map showing the buried gas lines, electrical lines, and road in the spacing unit. Also attached are copies of the executed unorthodox well location objection waivers from the offset operators to the adjoining spacing units.

In summary, approval of the application will provide Alamo the opportunity to recover additional oil and gas reserves from the Red lake; Queen-Grayburg-SA Pool underlying the SW/SW of Section 28 that may otherwise not be recovered, thereby preventing waste, and will not violate correlative rights.

If you should have any questions, please call me at 832-657-8005.

Sincerely,

Tyler Woodruff

Re: Delhi "B" State #4  
Section 28, T17S-R28E  
260' FSL & 330' FWL  
Eddy County, New Mexico

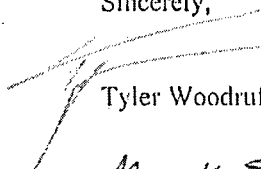

Mr. Gaynor:

Alamo Permian Resources, LLC will be submitting an application to the New Mexico Oil Conservation Division for an unorthodox well location for its Delhi "B" State No.4 to be drilled 260 feet from the South line and 330 feet from the West line of Section 28, Township 17 South, Range 28 East, N.M.P.M., Eddy County, New Mexico. Alamo Permian Resources, LLC intends to dedicate a 40 acre spacing unit in the SW/4 of the SW/4 of Section 28 to this well.

In advance of filing the application with the Division, we request your waiver of objection to the unorthodox location by signing below.

Thank you for your consideration of this matter. Should you wish to discuss this matter further, please feel free to call me at 832-657-8005 or 281-796-1097.

Sincerely,

  
Tyler Woodruff

 hereby waives objection to the unorthodox well location identified above.
