*Release #2 of 3*

**From:** Bratcher, Mike, EMNRD  
**Sent:** Tuesday, October 18, 2011 1:47 PM  
**To:** 'Jeremy Haass'  
**Subject:** Rodke AOY 1 Release 9/29/11

Reference: Yates Petroleum \* Rodke AOY 1 \* 30-015-28404 \* C-21-19s-25e \* Eddy County, New Mexico  
OCD Reference Number: 2RP-919 \* DOR: 9/29/11      ATTN: Jeremy Haass

Jeremy,

The C-141 submitted for the above referenced release was submitted as an Initial and Final report. It indicates a backhoe was dispatched and removed contaminated soils. Do you know if any samples were obtained from the excavation?

There was another release reported for this same well (DOR: 8/26/11). The source of both releases was listed as a flowline. Assuming both releases were from the same flowline, do you know if they were in the same place? The lat/long is listed as the same for both releases, but may be the lat/long of the well and not the actual releases. The first release was a net 7 bbl oil release with the second being reported as a net 8 bbl oil/produced water release. The first release proposes to obtain samples while the second release is requesting closure.

Thanks,
