**Subject:** Unit Gourley Fed #3

Mike, as we talked earlier, we will complete the excavation of the pit today. We plan to backfill the excavation, level the entire pit bottom and prepare it for the 40 mil liner on Thursday. When complete we will start the final backfill of the entire pit cover with topsoil for and prepare for seeding under the guidance of the BLM. No additional sampling will be performed as we have already performed the delineation with the borings. Please call if you have any questions. thanks.
