API # 30-015-40697

Mr. Brooks:

Burnett Oil Co., Inc. respectfully requests an exception without notice and hearing to NMOCD Rule 104 for the Gissler B #87 (Loco Hills Glorieta Yeso).

This location is 143' feet unorthodox at the surface. It encroaches on Section 11, Unit D which is also part of the same Burnett Lease. The working interests of Section 11, Unit C and Section 11, Unit D are the same. I have attached a map showing the Burnett leases in this area as well as a copy of our C-102.

Since this also encroached on Section 2, Unit M diagonally, Burnett Oil Co., Inc. has also notified the operators of this section. Attached you will find a copy of the notification letter which was sent out today via certified mail to the following operators:

- Boaz Energy, LLC
- COG Operating LLC
- Cimarex Energy Co. of Colorado

Please contact me if you have any questions or need any additional information.

Thank you,

Leslie M. Garvis

Dear Ms. Burleson,

As per your discussion with Mark Jacoby, Burnett Oil Company has submitted a request approval of a Non-Standard Location on the above referenced well. This letter is to notify you of this request as per OCD Rule 19.15.15.13. According to the OCD rules, you have twenty (20) days to respond to the OCD regarding this request.

Enclosed you will find a copy of our request, a plat showing the spacing unit and location and the adjoining spacing unit. A non-standard location was necessary in order to avoid sand dunes and china berry trees in the area.

If you have any questions or need any additional information, please do not hesitate to contact me or Mark Jacoby.

Yours truly,

Leslie M. Garvis
Regulatory Coordinator
