RE: Application for Unorthodox Location  
Administrative Approval Request  
RDX 16 #16  
API No. 30-015-40189  
2,610' FSL & 330' FWL (Unit L)  
Section 16-26S-30E  
Eddy County, New Mexico

Dear Ms. Bailey:

RKI Exploration & Production, LLC ("RKI") respectfully requests administrative approval of an unorthodox oil well location for its RDX 16 #16 well at the location described above, which is currently permitted in the Brushy Draw; Delaware, East Pool (8090), which requires standard 40-acre spacing with wells located no closer than 330 feet to the outer boundary of the spacing unit.

The RDX 16 #16 was originally planned to be staked at an orthodox location of 2,310' FSL & 330' FWL but had to be moved north to its existing location of 2,610' FSL & 330' FWL due to topographic issues (caliche pit and large drainage feature to the south).

RKI is the operator and sole lessee of all offsetting tracts, being Units E and F of Section 16-26S-30E and Unit H of Section 17-26S-30E; therefore notification of this application is not required.

Please find attached a Form C-102 showing the well location and affected offsets along with aerial and topographic plats.

Thank you for your assistance in this matter. Should you have any questions or need any additional information, please do not hesitate to contact me by phone at 405.996.5767 or via email at creid@rkixp.com.

Sincerely,

RKI EXPLORATION & PRODUCTION, LLC
