EME L-25 Site
Unit Letter L, Section 25, T19S, R36E, NMPM, Lea County, New Mexico
Corrective Action Plan Addendum (1R427-65) Approval**

Dear Mr. Conder:

The New Mexico Oil Conservation Division (OCD) has received the Corrective Action Plan Addendum for the EME L-25 Site, dated November 14, 2013, and has conducted a review of the addendum. The addendum indicates that Rice Operating Company (ROC) has met the requirements of 19.15.29 NMAC (Rule 29; formerly, Rule 116) for a remediation plan. Therefore, the OCD hereby conditionally approves the Corrective Action Plan Addendum as proposed for above-referenced site in accordance with 19.15.29 NMAC:

ROC must submit to the OCD the laboratory results for the groundwater at the site within 30 days. If the results indicate that any WQCC standard has been exceeded, then a corrective action plan for groundwater must be submitted to the OCD within 60 days.

Please be advised that OCD approval of this addendum does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.
