If a Watercourse was Impacted, Describe Fully.*:

Describe Cause of Problem and Remedial Action Taken.*: 2" poly flow line was run over by trakhoe being used by Diversified while excavating contaminated soil from a previous leak. This cut a 2" gap in line releasing gas and a small amount a water, no oil.

Describe Area Affected and Cleanup Action Taken.* : Flow line was immediately shut in and leak was repaired. Approximately 15 gal. of water was released. Diversified picked up contaminated soil and stock piled on plastic for future removal.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
