If a Watercourse was Impacted, Describe Fully.* N/A

Describe Cause of Problem and Remedial Action Taken.*

Frontier shut in sales line to complete maintenance/expansion at Maljamar Gas Plant. Expect to be down for 7-10 days.

Describe Area Affected and Cleanup Action Taken.*

Chevron will stay in close contact with frontier in order to stop flaring as soon as they were able to accept our gas in the sales line.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Mike,

Here are the Initial C-141 & C-129 reports for the flaring at our Skelly 907, Skelly 940 & TexMack Batteries due to Frontier shutting in our sales line. Flaring started at 6:00PM on 7/28/13. They expect to be down from 7-10 days. Once the sales line is back up and we are no longer flaring I will send the final reports. You will find the wells associated with each battery at the bottom of the email. Please let me know if you have any questions or need additional information.

Regards,

David A. Pagano
