

**HOLLY ENERGY PARTNERS**

October 21, 2013

Mr. Randy Dade, District Supervisor  
NMNRD Oil Conservation Division, District 2  
811 S. First Street  
Artesia, NM 88210

Re: Notification of intent to discharge hydrostatic test water  
Annual Temporary Permission, Permit: HBP-029

Dear Mr. Dade:

Holly Energy Partners (HEP) intends to discharge of fresh water from the hydrostatic testing of new pipe associated with the Gissler A-2 connection. Approximately 40 barrels of water will be discharged at the following location:

Unit Names	Latitude	Longitude	Discharge Volume (gallons)
Gissler A-2	32°50'46.7"N	103°55'24"W	1.680

This discharge is scheduled to occur between October 29, and November 7, 2013. The test water will be purchased from Caprock Water Supply, Public Water Supply ID NM3521008.

HEP will discharge through straw bales to disperse the water, as allowed by the applicable BLM Right-of-Way grants.

If you have any questions, need additional information or would like to observe this event, please contact me at 575.748.8968 or via email at [Bill.Green@hollyenergy.com](mailto:Bill.Green@hollyenergy.com).

Sincerely,

William D. Green, PG  
Environmental Specialist
