If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

2" tee washed out and 1/2 inch nipple on discharge of water transfer pump. The valve to transfer pump was closed and connections were replaced with new.

Describe Area Affected and Cleanup Action Taken.*

Approximately 1500 square feet release all contained inside the bermed facility and lease pad. A vacuum truck was dispatched and recovered 55 barrels of produce water.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOC D rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOC D marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOC D acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
