Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*
CAUSE: Suspected corrosion leak
ACTION: Excavate and repair pipeline. Dispose of impacted soils.

Describe Area Affected and Cleanup Action Taken.*
All gas was lost to atmosphere.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

**RE: Form C-141 Report for Enterprise Field Services LLC
Leak and Liquids Release on Carlsbad Gathering Lines**

Mr. Bratcher

Enclosed, please find the requisite C-141 Forms for the initial report of Eddy County releases of both gas and liquids at the following locations:

- Line 1003 on November 11, 2013.
- Line 30137 on November 12, 2013
- Baldrige Gathering line on November 12, 2013.

These reports are sent pursuant to 29 (19.15.29) NMAC and as follow-up to a verbal notifications made to Mike Bratcher by phone on November 12 and 13, 2013. Final reports for these releases will be sent when repairs have been made and the extent of liquids released can be determined.

If you have any questions or need more information, please contact Jim Heap by phone at 432-686-5404, by email at jkheap@eprod.com or me at 713-318-6684

Regards,

Ivan Zirbes
Sr. Director - Environmental

Terry,

I work with Mike Bratcher and had a question on this release.

You stated in the form that the "Type of Release" was " Natural Gas, Pipeline Liquids" but did not state the amount of liquids released nor recovered.

Can you please provide me that information?

Thank you. Have a great week.

Terry,

This is a follow up email for this release.

I really need the information on this release as I cannot process this until I have the completed information. This is also an initial release, so I assume there will be more information sent to us as well.

Thank you so very much for your time. It is greatly appreciated.

I hope you had a wonderful holiday.

Respectfully,

Jean-Marie Warren

Mr. Nolan,
There was no message left on mine nor Mr. Batcher's voice mail.

There was NO information given to us regarding the information requested.

Mr. Bratcher and I both received a call from a 432-686-5404 phone number with a hang up, no message. Please have someone get back with us, that would be greatly appreciated. This is the 3rd time I am requesting this. Thanks.
Respectfully,
Jean-Marie Warren

Ms. Warren,

Mr. Hurlburt had me forward this to the field manager, Mr. Thompson. This was a response from his staff.

Please let us know if you do not have this information.

To: Warren, JeanMarie, EMNRD
Cc: Thompson, Roger; Nolan, Shiver
Subject: Line 1003 Release

As requested in our phone conversation of 02DEC2013, the release of liquids on Line 1003 was approximately 4 barrels of pipeline liquids.

The initial volume was not included in the initial C-141 as it was below the regulatory reporting threshold. Enterprise will update the C-141 when and if the excavation efforts show 5 barrels or more of liquids released.
