NATURE OF RELEASE

Type of Release: Oil and Produced Water	Volume of Release: 45 / 45	Volume Recovered: 45 / 45
Source of Release: FWKO	Date & Hour of Occurrence: 12/17/13 0700	Date & Hour of Discovery: 12/17/13 0800
Was Immediate Notice Given? X Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? James Tinney	
By Whom? Nippy Howard	Date and Hour: 12/17/13 0800	
Was a Watercourse Reached? X Yes <input type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

Gasket on FWKO (free water knock-out) leaked. FWKO was isolated and used a vacuum truck to recover standing fluids.

Describe Area Affected and Cleanup Action Taken.*

Majority of spill was contained inside lined facility, with a 200'x200' overspray area on the pad, and a 100'x100' overspray area in the pasture. Pad area has been scraped and the impacted soil will be hauled to disposal, pasture area will be micro-blazed to neutralize hydrocarbons.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCDA rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCDA marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCDA acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Mike,
I have attached the C-141 for the spill that occurred on the Texas 32 State TB. Almost all of the entire spill was contained inside the lined containment. There was some overspray on the pad and in the pasture. The pad has been scraped and the impacted soil will be hauled to disposal. We will apply micro-blaze on the pasture area. If you need anything else, feel free to contact us.
