SUBJECT: REQUEST FOR UNORTHODOX LOCATION FOR AMETHYST FEDERAL #8

Dear Sirs,

ConocoPhillips Company respectfully requests a non-standard location exception to drill the Amethyst Federal #8 well. The lease is recorded as NM LC 054687. The well is located in UL L, 2200' from the south line and 1260' from the west line of Section 15, Township 17S, Range 32E, Lea County, New Mexico. The bottom hole footages (2274' FSL and 1025' FWL) place the well closer than 330' from a Qtr/Qtr Section line. This location was found to be the only one suitable for this well, that would allow us to reach our targeted production zone, while still protecting sand dune habitat deemed critical by the Bureau of Land Management biologist.

The spacing units adjacent to UL L:

- UL E, F, K, M, N in Section 15 are ConocoPhillips' Amethyst lease (NM LC 054687)
- UL I in Section 16 is a ConocoPhillips' Aquamarine State lease

Enclosed are the following documents in support of this request.

- Administrative Application Checklist
- Copy of the New Mexico Form C-102
- Website Image of Amethyst Lease

The attached list represents interested parties notified of this request via certified return receipt.

The granting of this exception will prevent waste and minimize surface disturbance. If you have questions regarding this request, I can be reached at 281-206-5281 or via email at Susan.B.Maunder@conocophillips.com.

Sincerely,

Susan B. Maunder
Senior Regulatory Specialist
