Describe Cause of Problem and Remedial Action Taken.\*

The gasket on the heater-treater fire tube failed. The production well was shut in and the gasket was replaced.

Describe Area Affected and Cleanup Action Taken.\*

The spill affected approximately 3200 sq.ft. of caliche well pad around the process equipment earthen containment and approximately 4000 sq.ft. of pasture area was lightly misted.

The process equipment and vegetation were washed down with soap and water the day of the release. All of the free standing fluid was picked up with a vacuum truck.

The spill area will be cleaned up in accordance to the NMOCD and BLM remediation guidelines

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
