Area Affected: Leak affected area is within the battery containment wall

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: ALAMO PERMIAN RESOURCES IMMEDIATE RELEASE NOTIFICATION

Mike,

Please let this email serve as my immediate release notification on the Alamo Permian Resources' Delhi State B Battery. The release occurred today around 2 pm central time. The type of release was produced water. The amount was 15 bbls. Amount recovered via vacuum truck was 15 bbls. Leak occurred due to a broken nipple on the pump suction line. The release was contained within the bermed battery area. I will send you the C141 shortly.

Thanks,

Carie Stoker
