Describe Cause of Problem and Remedial Action Taken.*
Possibly an illegal dump by a water transporter. All of the fluids remained on the well pad.

Describe Area Affected and Cleanup Action Taken.*
The produced water spill will be assessed to define extents. Tetra Tech will collect soil samples for the site evaluation. Once defined, a work plan will be submitted to the NMOCD for review and approval.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Mike,

Attached are photos taken recently on Stephens and Johnson's Mobil 22 Fed #6 (30-015-25333) K-22-26s-29e. Going just from the photos, it looks like a transport may have dumped on this site. OCD will request a Form C-141 be submitted reporting the release, and that the affected area be delineated (horizontal and vertical). A remediation proposal may then formulated for review by OCD and BLM. Jennifer VanCuren will be the contact for BLM.

If you have any questions or concerns, please contact me.
