This plan is approved. I did visit with CJ and requested the pit surface be addressed at the same time (This will take care of my previous inspection). A clay liner can be extended on unvegetated area with 1' of topsoil added and seeded with #2. He is putting an AFE together, so get with him to check on approval of AFE. I won't put this as a stipulation, but remediation of pit is required.

Thanks

David,

OCD concurs with BLM approval of the remediation proposal for the above referenced release. Please proceed on your schedule.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
