## NATURE OF RELEASE

Type of Release	Volume of Release	Volume Recovered
Produced Water	37bbls	35bbls
Source of Release	Date and Hour of Occurrence	Date and Hour of Discovery
Valve	05-13-2014	05-13-2014 11:00am
Was Immediate Notice Given?	If YES, To Whom?	
<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	Geoffrey R. Leking - NMOCD	
By Whom? Michelle Mullins	Date and Hour 05-15-2014 07:58am	
Was a Watercourse Reached?	If YES, Volume Impacting the Watercourse.	
<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No		

\* If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*

A valve on a filter pot was left open. Closed valve on filter pot.

Describe Area Affected and Cleanup Action Taken.\*

Initially 37bbls of produced water were released. We were able to recover 35bbls of produced water with a vacuum truck. The spill was contained inside the lined facility. All free fluid has been recovered. Any contaminated gravel has been removed, the liner has been steam cleaned and we has replaced with fresh gravel as necessary. This location has been returned to its prior condition.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
