If a Watercourse was Impacted, Describe Fully.*		JUN 09 2014
Describe Cause of Problem and Remedial Action Taken.*		RECEIVED
<p>Oil hauler was getting a load of oil and noticed the leak. 5 bbls of produced water was all in contained area. He immediately called the flowback hand who in turn called the lease operator. Lease operator showed up on location and immediately shut the wells down. Called a roustabout crew out and fixed the problem within 4 hours.</p>		

Describe Area Affected and Cleanup Action Taken.*
Called a vacuum truck and recovered 5BBL produced water from secondary containment.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
