Form C-141 Revised August 8, 2011

RECEIVED

IVED Santa Fe, NM 87505

| Describe Cause of Problem and Remedial Action Taken.* Swedge on back of water tank froze and busted. All the produced water was contained inside the berm Describe Area Affected and Cleanup Action Taken.* Got vacuum truck to location to recover the produced water from inside the berm. No other action taken at this time. I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
