If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*

Check valve failed on well head leading to release.

Describe Area Affected and Cleanup Action Taken.\*

Majority of fluids stayed on the well pad with a small pasture area east of the pad impacted. On discovery vacuum truck contacted and vacuumed up the standing fluids which were sent to disposal. 60bbbls of fluids recovered. Visually contaminated soil has been excavated and sent off for disposal.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
