If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.* As I was checking wells I pulled up to CMU 152, and realized the stuffing box was leaking, The well had a trapper on it, but water was running out of it and didn't shut well off. First thing I did was shut well in and got leak to stop, Then I notified my foreman. I got a vacuum truck to pick up water off of ground, he picked up 25bbls of produced water.

Describe Area Affected and Cleanup Action Taken.* The area affected was to the south app. 25' long and 4' wide, and to the north it ran 35" long and was 3' wide. While I had the vacuum truck I changed the packing & greased well, then returned well to production.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
