NATURE OF RELEASE

Type of Release: Oil / Produced Water	Volume of Release: 4 bbls / 1 bbl	Volume Recovered: 3 bbls / 0
Source of Release: Water Dump valve	Date and Hour of Occurrence: 12/11/13	Date and Hour of Discovery: 12/11/2013 0900
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Mike Burton- BLM Geoffrey Leking-NM OCD	
By Whom? Brian Wall	Date and Hour 12/12/2013 0837	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

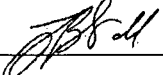

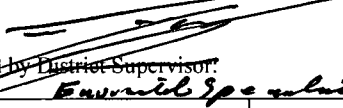

If a Watercourse was Impacted, Describe Fully.*:

Describe Cause of Problem and Remedial Action Taken.*: Water Dump on heater treater didn't dump water because the diafram had hole in it and filled the dump up with water and then heater filled up with water and dumped water and oil into oil production tank and over flowed the tank and did not equalize into other tank because other oil tank was full waiting for loads to be hauled.

Describe Area Affected and Cleanup Action Taken.* : Picked up fluid with vacuum truck. Will have ETech give an assessment. Just oil on surface. May try and wash area.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
