If a Watercourse was Impacted, Describe Fully.*	n/a				
Describe Cause of Problem and Remedial Action Taken.* This is a former tank battery that has been abandoned. The hydrocarbon impact is historical in nature. Hess has a generic remediation plan approved by the NMOCD.					
Describe Area Affected and Cleanup Action Taken.* The tank battery site will be assessed and delineated. Samples will be collected and the results will be discussed with the NMOCD to create a remediation and closure plan.					
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
