Describe Cause of Problem and Remedial Action Taken.\*  
This release was caused by a water tank overflow. Vacuum trucks were dispatched to pick up all standing fluids and dispose of at an NMOCD approved facility.

Describe Area Affected and Cleanup Action Taken.\*  
The impacted area 30'x100' in front of the battery to the southeast. Concho will have the spill site sampled to delineate any possible contamination from the release and we will present a remediation work plan to the NMOCD for approval prior to any significant remediation work.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
