If a Watercourse was Impacted, Describe Fully.*		
Describe Cause of Problem and Remedial Action Taken.* Discharge line on transfer pump over -pressurized and ruptured.		
Describe Area Affected and Cleanup Action Taken.* The spill was on top of a previous spill that has an approved work plan. Discussed with OCD & BLM, and we will continue with remediation and take bottom hole samples to confirm clean up.		
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: RE: Release at the GA2 Battery on 11/23/14
Attachments: GA2 Battery C-141_Initial.pdf

Attached is the initial C-141 for this release. We have verbal approval from both the BLM (J.Amos) and the OCD (H.Patterson) to address this latest release with the current cleanup plan for this battery.

Please let me know if you have any questions.

Subject: Release at the GA2 Battery on 11/23/14
Importance: High

Mike/Jim,

I wanted to make you aware that we had a 30-40 bbls release at the Gissler A 2 Battery yesterday. We are already doing work at this location on a previous spill from March. Once I have more details, I will forward the C-141 for this release.

I believe that Johnny contacted Jeffrey yesterday but I don't believe the OCD was notified. We are hoping that we will be able to combine the clean up for both of these releases. More info to follow.

Thank you,

LESLIE M. GARVIS

Subject: RE: C-141, Gissler A-2

Hi again ☺

I asked Heather about the C-141 in question and she showed me a previous permit with the same info and there is a previous C-141 filed 3/20/2014 for the Gissler A-2 Battery and the API# used was: 30-015-33498. So, that's the API # we will use for this current permit.

Happy Thanksgiving!

Good Morning. There is no API number for this as it is a tank battery. I did put the Federal lease number on there which is the ID for that battery.

Good morning Leslie,

I have a C-141 that was received on 11/25/2014 for processing and I have a question regarding the name of the well listed. Gissler A-2 as written on the C-141 does not exist. Would you give me the API# for the correct well name? I researched in the OCD website by Section, township and range and there are three wells listed in that location but not for Gissler A-2.

I would appreciate the info in order to process the permit ASAP. ☺

Thanks for your help in this matter.
