SECTION 2, T. 17 S., R. 37 E., LEA COUNTY, NM**

I. This proposed oil well is on State surface and a State oil and gas lease within the unit. The well is nonstandard (80' too far north and 10' too far west) for the Eunice; Bli-Dr-Tu, North Pool (22900) due to a two lane road (see EXHIBIT A). Apache requests a nonstandard location due to land uses. A standard location would block the road.

A standard location must be $\geq 330'$ from the boundary of the quarter-quarter according to Order R-8539 et al. In this case, it is 250' from the north side of the NESE (UL I) and 320' from the west side of the NESE (UL I).

II. Form C-102 showing the well and 40-acre dedication is attached as Exhibit B. Exhibit C shows the unit boundary. The well is 80' too far north and 10' too far west. However, it is 1,000' from the closest unit boundary. The well encroaches toward the interior of the unit.

III. Unit boundaries are shown on EXHIBIT C. The well encroaches to the north and west. This is toward the interior of the unit. Eunice; Bli-Dr-Tu, North dedications exist in unit letter I and all 8 bordering or cornering quarter-quarters or lots. This information is current and correct.

IV. Archaeology is not an issue.

V. Surface issues (2 lane road) and the need to prevent waste and recover additional reserves drive the need for this nonstandard location.

VI. Apache does not believe directional drilling to a standard location is cost effective for this well.

VII. I hereby certify that there is common ownership and partner approval of the Blinbry, Drinkard, and Tubb working interest in the lease which comprises the proposed 40 acre spacing unit (unit letter I) and the adjacent quarter-

quarters or lots (Lots 15 & 16 and unit letter J of Section 2) of the sides and corner toward which it encroaches, all of which are in the unit, and that the information is current and correct. Therefore, notice to any affected party is not required.
