Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*

Corrosion on a 6 inch steel gas line connecting to the loop line. Production was shut down and line was repaired.

Describe Area Affected and Cleanup Action Taken.\*

None required

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

This is to inform you that Oxy had an undesirable release of gas at this location of appr 4000 mcf of gas due to equipment failure on 7-7-14. No fluids were involved and the problem has been resolved. I will send an initial and final c141 for this event. Thanks.
