Gentlemen,

It was brought to my attention that I had not yet submitted the C-141 for your review on this incident. I apologize, I completed it, then failed to send it.

I am truly hoping we can complete the remediation of this site as soon as possible Thank you!

Gentlemen,

Yesterday, 12/14/14, we had a 70 bbl produced water spill. We were able to recover 50 bbls, and all fluids were contained on the location pad. Several holes developed in the flow line, and repairs have been made already.

I will be submitting a C-141 ASAP. API 30-015-33094

Thank you.

Christine Alderman
