**NM OIL CONSERVATION**  
ARTESIA DISTRICT

Describe Cause of Problem and Remedial Action Taken.\*

FEB 05 2015

More water was put into system and trucking company failed to haul sufficient loads away.

Shut in wells and let station pump down. Had vac truck within 1 hour to suck up water out of containment.

RECEIVED

Describe Area Affected and Cleanup Action Taken.\*

All fluid remained in secondary containment berm, 10/11Bbbs spilled were recovered.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
