If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

A Non-Apache third party contractor installing a 3 in water line ran over padded poly flow line and ruptured the line with rippers on blade. The line was isolated and repaired.

Describe Area Affected and Cleanup Action Taken.*

The entire release was in pasture.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Ms. Patterson,

Attached are the revised initial C-141 for the EAU emulsion line and MJ SWD line. I also included GPS data. Please let me know if you need anything else.

Sorry for the inconvenience.

Subject: RE: Initial C-141

Bruce,

Can I please get a lat/long for these two releases?

Also, you listed the same API for both. Should the EAU Emulsion line release be on a different API?

Thanks,

Heather Patterson
