NATURE OF RELEASE

Type of Release: Oil	Volume of Release: 60 bbls	Volume Recovered: 30 bbls
Source of Release: Circulating Pump	Date and Hour of Occurrence 4/8/14	Date and Hour of Discovery 4/8/14
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Mike Bratcher @ NMOCD - email Jennifer Van Curen @ BLM - email	
By Whom? Chris Jones	Date and Hour: 4/9/2014 9:35 am	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.* **A 1-inch valve on the circulating pump was found leaking causing 60 barrels of oil to be released within the dike of the battery. The facility was shut-in, the pump repaired and put back into service. A vacuum truck was immediately called to the location and 30 barrels of oil was recovered. The area impacted was within the walls of the battery.**

Describe Area Affected and Cleanup Action Taken.* **Talon/LPE was contracted by Oxy for the correction of this release. Verbal permission was obtained from BLM and OCD to hand-excavate the impacted soil to the extent feasible within the battery to the top of rock. This was done and over 200 cubic yards of contaminated soil were disposed of at Lea Land. It would have been extremely difficult to do more work in the tank battery than was safely accomplished at that time - without total removal of the existing infrastructure. Talon personnel subsequently took a meeting with Mr. Bratcher and verbal permission to backfill the tank battery was obtained. We request that no further actions be required.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
