Mike,

Per our conversation this morning, Yates has request closure with submitting the following, a Form C-141 Final Report and Analytical Report – 3A07010. Yates has excavated the release area to a depth of three (3) feet, impacted soils were taken to an NMOPCD approved facility. The excavation area will have a 20mil liner installed before clean material backfilled. Yates would also like to request permission to begin lining and backfilling the excavation area (clean backfill is stockpiled on location).

Thank you.
