**Subject:** Oxy-DWU Federal #1  
**Attachments:** Remediation Packet- DWU Fed #1 - 2.pdf

Mike,

This e-mail is to confirm our discussion on September 5, 2012 concerning the remediation plan for the release that occurred at the Oxy DWU Federal #1. As agreed, Oxy will excavate 3 feet in the areas covered by SP1 - SP3 and will excavate to a depth of 1 foot in the areas covered by SP4 - SP6 as depicted on the attached site diagram. In addition, inside the tank battery berm area, a compacted clay liner will be installed in the previously excavated 2 foot area then backfilled. The excavation will then be backfilled with clean soil. The depth to groundwater in this area is approximately 100 feet.

I have attached the site drawing and the summary of the laboratory data we reviewed during our discussion for your files. If you would please reply back via e-mail with your concurrence of this remediation plan, it would be greatly appreciated.

Oxy and I thank you for your assistance in handling this matter.

Thanks, Cliff
