Thrust chamber on SWD pump failed. All free fluids were recovered via Vac Truck. Remediation complete as described in the OCD and BLM approved remediation plans.

Describe Area Affected and Cleanup Action Taken.\*  
10 bw were recovered. Immediate/initial response was free-fluid recovery via vacuum truck. Clean up was performed by excavating the impacted soil and backfilling the site with clean soil. Confirmation sampling was performed and results were provided to the BLM and NMOCD. Closure was granted on 11/28/2011 by the BLM. Finalization approval was granted by the NMOCD on 11/22/2011.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
