NATURE OF RELEASE

Type of Release	Produced water	Volume of Release	20 to 40 bbls	Volume Recovered	0 bbls
Source of Release	Water injection line	Date and Hour of Occurrence	1/29/2012 2:15 pm	Date and Hour of Discovery	1/29/2012 2:15 pm
Was Immediate Notice Given?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom?	NMOCD Mike Bratcher (voicemail)		
By Whom?	Hack Conder	Date and Hour	1/30/2012 4:00 pm		
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*
The injection line ruptured. The line was repaired.

Describe Area Affected and Cleanup Action Taken.*
The total affected area spans 6,000 ft² which included 4,583 ft² of pasture and 1,417 ft² of area along a two track dirt road. Trenches and soil bores were installed at the site to determine the vertical extent of the release. The area around SB- Pt. 3 and SB- Pt. 5 was excavated to 5 ft bgs and a 20-mil reinforced poly liner was properly seated. The excavation was backfilled with clean, imported caliche to 2 ft bgs then topped with 2 ft of clean, imported top soil. The remaining release area in the pasture was excavated to 3 ft bgs and the road was excavated to 4 ft bgs. All the excavated soil was disposed of at a NMOCD approved facility. The remaining release area in the pasture was backfilled to 2 ft bgs with clean, imported caliche and topped with clean, imported top soil. The road excavation was backfilled entirely with clean caliche.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
