Reference: Yates Petroleum Corp. Wright JA 004 30-015-22870 F-34-18s-26e Release date: 7/14/2009

Bob,

In response to your closure request, dated January 7, 2010, for the above referenced release, the proposal to remove an additional 1' of material is approved. OCD would request that deeper samples be obtained for analyses to further delineate contaminants at this release site. If no increase in contaminant levels is detected, and, upon removal of the additional material, please advise and the Final Report C-141 may then be approved.

OCD approval does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Please notify the OCD District 2 office 48 hours prior to obtaining samples where analyses of samples obtained are to be submitted to OCD.

If you have any questions or concerns, please contact me.

*Mike Bratcher*
