If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

Pipeline leak was detected by an Enterprise Inspector. Pipeline segment was clamped and blown down, and leaking portion will be repaired following standard One-Call.

Describe Area Affected and Cleanup Action Taken.*

Liquid spill occurred within pipeline ROW. Clean-up activities will be carried out in accordance with Enterprise's General release Notification, Response and Remediation Plan according as defined in the housekeeping standards. Enterprise will maintain records of sampling results and disposal documentation, and will make available to NMOCD upon request.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
