<b>Describe Area Affected and Cleanup Action Taken.*</b>  On July 12, 2015 as TCS Trucking employee was transferring oil from the Cotton Draw 89 SWD to the Cotton Draw Unit 134 H, there was an overflow of oil, this caused 15 bbls to spill into containment. All 15 bbls of oil were recovered immediately. Containment was checked for holes to make sure there was no leakage, none were found.		
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
