RE: Final C-141 Report  
Spill at Jackson Booster  
Section 28, TWN 17S, RNG 29E  
Eddy County, New Mexico

Dear Mr. Bratcher:

Enclosed is a final C-141 report on a spill that occurred inside and outside of the secondary containment at the above referenced facility. A separate C-141 report was submitted in October of 2008 that addresses remedial action for the north and east sides of the secondary containment. Additional soil staining was noted on the west side of the containment in an inspection by OCD on August 26, 2009 and a final C-141 separately addressing this area was required after remediation of the west side of the containment.

If you have any questions, please contact me at 432-620-4207.

Sincerely,  
DCP Midstream, LP
