RE: **Correction Letter**
Downhole Commingling Application
No. 2A Suter
790' FSL & 1650' FEL, Sec 12-T32N-R11W
San Juan County, New Mexico

Dear Mr. Hoover:

Our August 2, 1996 approval letter for the referenced downhole commingling application had the incorrect legal description and lease number.

The Pictured Cliffs formation had a 1996 mid-year production average of 78 Mcfpd, with a bottom hole pressure of 683 psi and a BTU value of 1134. The Mesaverde formation had a 1996 mid-year range of 180 Mcfpd and a yield of .0001 BO/Mcf, with a bottom hole pressure of 339 psi and a BTU value of 1081. Using these figures, the allocation for this well will be as follows:

Formation	Gas Allocation	Oil Allocation
Pictured Cliffs	30%	0%
Mesaverde	70%	100%

Under provisions of 43 CFR 3165.3, you may request an Administrative Review of the order(s) described above. Such request, including all supporting documents, must be filed in writing within 20 business days of receipt of this notice and must be filed with the State Director, Bureau of Land Management, P. O. Box 27115, Santa Fe, New Mexico 87502-0115. Such request shall not result in a suspension of the order(s) unless the reviewing official so determines. Procedures governing appeals from instructions, orders or decisions are contained in 43 CFR 3165.4 and 43 CFR 4.400 *et seq.*

If you have further questions regarding this matter, please contact Brian W. Davis at (505) 599-6367 or (505) 599-8900.

Sincerely,

/s/ Duane Spencer

RE: Downhole Commingling Application
No. 2A Suter
840' FNL & 1630' FEL, Sec 33-T31N-R11W
San Juan County, New Mexico

Dear Mr. Hoover:

The Farmington District Office (FDO) of the Bureau of Land Management (BLM) has received your correspondence on July 26, 1996, for downhole commingling of the Blanco Mesaverde and Blanco Pictured Cliffs in the above referenced well.

The Pictured Cliffs formation had a 1996 mid-year production average of 78 Mcfpd, with a bottom hole pressure of 683 psi and a BTU value of 1134. The Mesaverde formation had a 1996 mid-year range of 180 Mcfpd and a yield of .0001 BO/Mcf, with a bottom hole pressure of 339 psi and a BTU value of 1081. Using these figures, the allocation for this well will be as follows:

Formation	Gas Allocation	Oil Allocation
Pictured Cliffs	30%	0%
Mesaverde	70%	100%

Under provisions of 43 CFR 3165.3, you may request an Administrative Review of the order(s) described above. Such request, including all supporting documents, must be filed in writing within 20 business days of receipt of this notice and must be filed with the State Director, Bureau of Land Management, P. O. Box 27115, Santa Fe, New Mexico 87502-0115. Such request shall not result in a suspension of the order(s) unless the reviewing official so determines. Procedures governing appeals from instructions, orders or decisions are contained in 43 CFR 3165.4 and 43 CFR 4.400 *et seq.*

If you have further questions regarding this matter, please contact Brian W. Davis at (505) 599-6367 or (505) 599-8900.

Sincerely,

Duane W. Spencer
