Source of Release 6 inch tubing line	Date and Hour of Occurrence	Date and Hour of Discovery 11-22-09 @ 10:00am
Was Immediate Notice Given? <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom?	
By Whom?	Date and Hour See above	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.\*

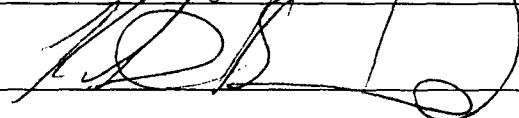

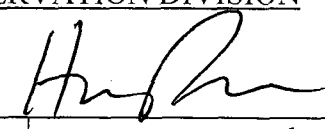

Describe Cause of Problem and Remedial Action Taken.\*

6 inch tubing line rusted, causing the line to split

Describe Area Affected and Cleanup Action Taken.\*

Area affected was on the location approx. 50' X 30'. A vac-truck was called to pick up all standing fluid remaining on location. Delineation was completed and all horizontal and vertical levels were below required levels. Groundwater is >100' BGS; Ranking Criteria is 0 points on well head protection and surface body of water protection. Site will be left as is. Lab analytical is in the original remediation plan that was submitted.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
